Port of Cairns, Australia.

To Whom It May Concern:

It is with great pleasure that I write this unsolicited and unexpected letter of appreciation and recommendation for Todd Malone and Malone Butchery.

During RASA's visit to Australia and in the performance of our business there were a few individuals and companies that made a unforgettable impression upon us. At the top of this short list is Todd and his company. His depth of knowledge, quality of product and unparalleled level of service will be a standard by which we will gauge future vendors and purveyors. In the yachting industry where reliability is paramount, Todd has no competition.

Many thanks and my sincere appreciation for your services.

Best regards,
